## EDUCATION:

| Institute   | Year      | Course | C.G.P.A |
|-------------|-----------|--------|---------|
| G.L.B.T.I.M | 2019-2023 | BTech  | 7.6     |
| F.A.S       | 2019      | 12th   | 8.4     |
| F.A.S       | 2017      | 10th   | 7.78    |

## PROJECTS:

### News-Aggregator

- The application integrates multiple web crawlers to collect and display news from various online sources.
- I worked on the backend part of the project and also played the team leader's role.
- The application includes the following features: - Customized news viewing, Share Report, Analytics, and Comment Section.

Django, BeautifulSoup  
HTML, CSS  
React

### E-Commerce Website

- An E-Commerce Website includes the following features: Customer logins / Product Filtration & Search, Shopping Cart, Wishlist, Reviews, and Ratings.
- This is a Team Project, where I played the Team Leader role and worked on the Customer Logins and Shopping Cart section of the website.

HTML, CSS, React.js  
Node.js, Django, Bootstrap  
(Team Project)

### Chat application

- The chat application is a 1-on-1 message application, which uses REST API and WebSockets for notifications and to avoid polling.
- The app is capable of displaying the last 10-15 messages which the user switches between the chats.

HTML, JavaScript, CSS  
Python-Django, Rest API

## INTERNSHIP:

### Digital Dronacharya | UX-UI Designer

May-July, 2021 | Virtual

- Worked on UX-UI design of company's main site.
- Managed a process re-engineering project to improve and consolidate end-to-end service processes.

## SKILLS:

- **Programming/Scripting** : Python, C, C++, HTML, CSS, JavaScript, R
- **Familiar IDE's**: PyCharm, VS-Code, Jupyter, PyDev
- **DataBase Skills**: MySQL, MongoDB
- **FrameWorks**: Django, React.js, Bootstrap, GeoDjango, Node.js
- **Operating Skills**: Windows, Linux

## ACADEMIC ACHIEVEMENTS:

- Completed **TCS iON Carrer Edge** with an aggregate of 90%
- Finalist in **Codekaze Coding Ninja**, (ranked 546 out of 2,230)
- **IIIT-Hyderabad Hackathon**, (ranked 125 out of 3500)
- **60 Hours Hackathon**, (ranked 463 out of 1500)

## UNDERGRAD COURSES:

- Data Structures & Algorithms
- Database Management System
- Operating System
- OOPS
- Software Development & Analysis
- Computer Networks

## ROLES & RESPONSIBILITIES:

- **Campus Ambassador**: Coding Ninja, Techkriti IIT-Kanpur Jan-July, 2022  
Zuno Monster (**Present**)
- **Internshala student partener** May-August, 2021
